TDM660

The product manufactured by the company mentioned above is a thermal transfer ribbon which is employed for printing of labels and food packaging.

It was examined by us according to the

Methoden zur Untersuchung von Kunststoffen, soweit sie als Bedarfsgegenstände im Sinne des Lebensmittel- und Bedarfsgegenständegesetzes verwendet werden, einschließlich der 62. Mitteilung des BfR zur Untersuchung von Hochpolymeren, Bundesgesundheitsblatt 50, 524 (2007), Stand vom April 2007,

(Methods for testing plastics as far as they are used as consumer goods as defined by the Foodstuffs and Consumer Goods Act, including the 62nd memorandum of the BfR on the examination of high polymers, Bundesgesundheitsblatt 50, 524 (2007), state of April 2007),

for the composition as well as for the release of substances which might endanger health.

The analyses performed on the thermal transfer ribbon showed results which ensure that the labels and food packaging materials printed with it meet the demands of the

Regulation (EC) No 1935/2004 of the European Parliament and of the Council of 27 October 2004 on materials and articles intended to come into contact with food and repealing Directives 80/590/EEC and 89/109/EEC, Official Journal of the European Union L 338/4 of 13.11.2004, lastly modified by article 5 of the Regulation (EU) 2019/1381 of 20 June 2019, Official Journal of the European Union L 231/1 of 6 September 2019, article 3, 1. (a) and (b),

as well as of the

Lebensmittel-, Bedarfsgegenstände- und Futtermittelgesetzbuch (Lebensmittel- und Futtermittelgesetzbuch - LFGB) in der Fassung der Bekanntmachung vom 15. September 2021 (BGBl. I S. 4253), zuletzt geändert durch Artikel 7 des Gesetzes vom 27. September 2021 (BGBl. I S. 4530), §§ 30 und 31,

(Foodstuffs, Consumer Goods and Animal Feed Code (Foodstuffs and Animal Feed Code - LFGB) in the version of the notification of 15 September 2021 (BGBl. I. p. 4253), last amendment by article 7 of the law of 27 September 2021 (BGBl. I p. 4530), §§ 30 and 31),

as far as the influence of the thermal transfer ribbon is concerned.

The unprinted and reverse side of packaging materials and labels manufactured with the white thermal transfer ribbon **TDM660** which pattern shall represent product's barcode, lot number, expiry date and similar data may safely come into direct contact with dry, moist and fatty foodstuffs as far as the mentioned ribbon is concerned.

The thermal transfer ribbon **TDM660** according to the sample material submitted may thus be used safely for the small-area labelling of labels and food packaging materials with barcodes, lot numbers, best-before dates and similar labels, provided that it is ensured by the appropriate printing settings that the printings do not migrate from the substrates onto the foodstuffs.

This certificate of compliance has a validity of 2 years and consists of 3 pages.
