

Ultra-white Resin Ribbon

TDR346W

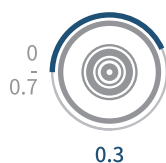

BARCODING THE WORLD

TDR346W is an ultra-white resin ribbon with a strong heat resistance and abrasion resistance as well as corrosion resistance. It is mainly used on semi-high gloss and high gloss black labels in electronics, batteries etc. scenarios. Its ultra-white printing and superior sharpness make it to be widely praised by the customers as soon as it is launched.

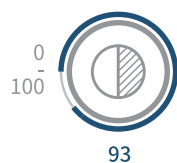

-  Superior White Printing Color
-  Excellent Printing Quality
-  Excellent Corrosion Resistance

Resistance Test

Physical resistance

Slight exposure begins after approx. X cycles with a 680G weight load.

Water resistance test

The printed label was soaked in water at **100°C for 2 hours** and then check whether the imprint of the label was significantly faded.

No significantly faded

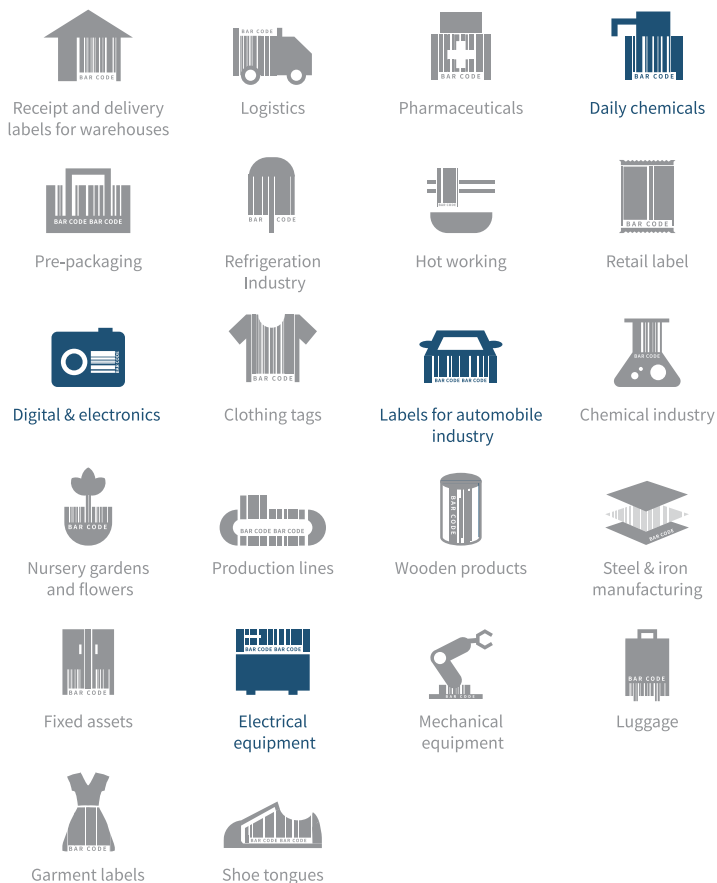

Low-temperature test

The printed label was placed in a closed cold box at **-17°C for 20 hours** and then check whether the imprint of the label was significantly fallen off.

No significantly fallen off

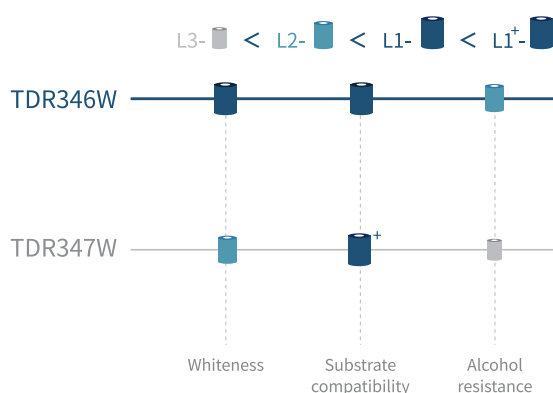

Recommended Applications

Properties

PET film	Ribbon
Thickness: 4.5μm	Thickness: 8.5±0.3μm
Ink	
Color: white Melting point: 90±3°C	
Storage condition	
Temperature: 5~35°C Humidity: 20~80% Validity period: 12 months
